CLARIFICATIONS TO BIDDER'S ENQUIRIES NO.5

PROVISION OF AN INTEGRATED INFORMATION MANAGEMENT SYSTEM (IIMS) FOR BDC

Date Issued:29/04/2024.

ITEM No	QUESTION	BDC RESPONSE
1.	Regarding the requirement for proof of accreditation of implementation of the proposed solution or technology, as outlined in section (7.1.2) of the tender documentation. It states that failure to provide such proof will result in outright disqualification. Could you please provide further details on what specific accreditations are required? Additionally, if there are any guidelines or criteria for what constitutes acceptable proof of accreditation, it would be greatly appreciated if you could share those as well.	This requires bidders to demonstrate that they are accredited to implement their proposed solution by the software vendor or proof of ownership of the solution.
2.	Concerning the inclusion of client references for similar projects, as stipulated in section (7.2- V). The requirement states that three or more client references must be included. Could you please confirm whether these references need to be from projects specifically related to Integrated Information Management Systems (IIMS), or if references from similar technology implementations would also be acceptable?	Bidders must provide references for projects of comparable complexity.
3.	May we follow up on the access of the recorded briefing session that took place on the 19th of April at 10:00 as it could be beneficial to the potential vendors.	The Recording will be shared
4.	Furthermore, if there are any specific criteria or guidelines for selecting appropriate client references, it would be beneficial to have those outlined to ensure our submission meets your expectations.	Refer to 2 above.
